RE: ADDENDUM NO.1

CONSULTANCY TO CARRY OUT AN INDEPENDENT AUDIT FOR THE NORTHERN KENYA BIODIVERSITY CONSERVATION PROJECT MARSABIT IN MARSABIT NATIONAL PARK-AFD- TENDER NO: KWS/RFP/AFD/23/2018-2019

Pursuant to the above advertised tender, Kenya Wildlife Service wishes to make the following clarification.

1. Tender security is not a requirement.
2. The total cost of the project is given on the Request for proposal document page 2.
3. The audit period under review is between the financial period 2016-2017 and 2017-2019 as indicated in the RFP document page 9
4. The AFD project is based in the Marsabit Forest Reserve in Marsabit town. Accounting of expenditure is done on site (Marsabit) with the returns domiciled at the senior project accountant office in KWS Headquarters Nairobi. Nonetheless, the winning bidder is expected to corroborate expenditure with the interventions envisaged in the Annual Work plan and the Budget (AWPB). So the audit will be at two levels, financial and physical verification on project site

This addendum is construed to form part of the tender requirements.

All other conditions remain

Christopher Oludhe
