

ADDENDUM 2

TENDER NO. KWS/EOI/AFD/23/2019-2020; EOI FEASIBILITY STUDY FOR PROPOSED KENYA PARKS

This is in response to queries made by one of the interested bidders on the above tender:-

Query: - *Do all entities of the consortium need to provide 3 assignments where they implemented feasibility studies, and 3 client details?*

KWS response: - The proof of assignments on feasibility study undertaken should be three collectively, and not for each party to the consortium.

Query: - *What is the difference with the Certificate of Incorporation and the Proof of vendor accreditation certificate/ registration?*

KWS response: - There is no difference between the Certificate of Incorporation and proof for accreditation; they refer to one and the same document, depending on the firm's country of origin. So you can ignore (j) of the requirements.

Query: - *Would it be possible to know if all joint venture members need to provide all the mandatory administrative documents, or only the lead partner?*

KWS response: - All parties to the joint venture are required to furnish the necessary administrative documents for the consultancy.
